2016

Our classroom will be beginning a 1 to 1 device program. The class now has a set of Kindle Fire Android Tablets available for students to use. Each student may use their own personal tablet or a device purchased by the school. The tablets will be used throughout the school day and at home during the school week. The class collectively developed the following rules of acceptable use:

- We will use tablets for academic purposes.
- We will only use our own designated device.
- We will not download or install apps without permission.
- We will only communicate with teachers, peers, and parents.
- We will use technology to support our learning.
- We will not leave devices on the floor or remove them from their cases.
- We will not have food or drinks while using the devices.
- We will not use individual social media on the devices.
- We will tell the teacher about any problems with device, content, or functionality.

The chance to use this device is a privilege we are able to offer students provided that students use extra caution and take responsibility.
