

March 17, 2014

Dear Room 105 Families,

The students have been doing some exciting group work in class. We are ending our unit on adventure/survival stories and book clubs with the completion of our timelines. They look AWESOME! In science students will create a GoogleDocs presentation on a living organism. Stay tuned for those to be posted on our class website. Please be aware that our next unit in math is fractions. This tends to be one of the more challenging units. I will post videos to help with the homework and explanation of class concepts. Feel free to contact me if you have questions or concerns.

Here is what we did this week:

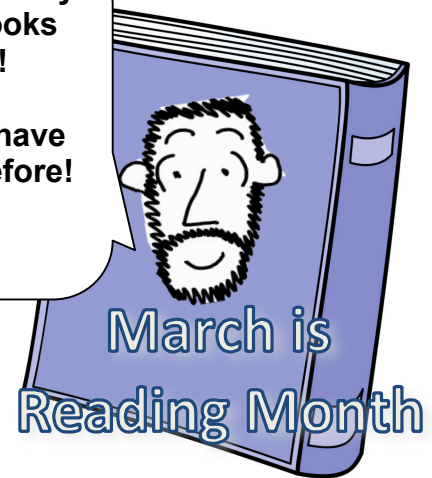

- Social Studies – Immigration
- Science–Needs of Animals
- Reading – Adventure Book Time Lines
- Writing – Ind Writing Project
- Math – Unit 6 Long Division

Here is what we will be doing next week:

- Social Studies – Immigration
- Science–Needs of Animals - Presentation
- Reading – Non Fiction Reading
- Writing – Ind Writing Project – FINISH ROUGH DRAFT
- Math – Factions

There are so many genres of books out there!

Try one you have never read before!

March 17-21
